Zoom Virtual Event (Zoom link sent with registration)

Topic: What You See Is All There Is. Challenges of Care in a Mental Health and Substance Use Pandemic.

Overview, Target Audience and Learner Outcome

Each Collaborative Case Review will describe a case associated with a possible adverse event and explore the system and clinical reasoning factors that may have contributed to this or similar cases for CHCO employees, faculty, fellows, and residents. The Learner Outcome for each participant is to report an increased understanding of the participant's contribution to system improvement and their role as members of the diagnostic team.

Objectives

- Examine how system factors and cognitive factors contribute to preventable harm arising at Children's Hospital Colorado.
- Discuss insights on possible solutions to address these factors.

Continuing Education Credit

Registration and completion of the online evaluation within seven days after each presentation is required to receive CE credit.
