

CHILDREN'S HOSPITAL COLORADO PRESENTS

# Virtual Education Series: COVID-19 & MIS-C in the Critically ill Pediatric Patient

Thursday, October 21, 2021 • 12 to 1 p.m.

Teleconference (Zoom link sent with registration)

## Overview, Target Audience and Learner Outcome

This activity is for the interdisciplinary healthcare team will include a review of current literature and clinical pathways followed by Children's Hospital Colorado for the evaluation, treatment and management of critically ill pediatric patients with COVID-19. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on clinical practice. As a result of this activity, learners will be able to self-report new knowledge related to care of a pediatric patient with COVID-19.

## Objectives

- Discuss pediatric COVID disease and its impact on the early respiratory season
- Describe care of the pediatric patient with COVID including respiratory disease and thrombosis
- Define multisystem inflammatory syndrome (MIS-C) and care guidelines for the pediatric population

## Faculty from Children's Hospital Colorado / University of Colorado

**Cameron Gunville, MD:** Associate Professor of Pediatrics, University of Colorado School of Medicine, Interim Medical Director of PICU, Children's Hospital Colorado

**Michele Loi, MD:** Assistant Professor of Pediatrics, University of Colorado School of Medicine, Attending Pediatric Intensivist, Children's Hospital Colorado
