Overview

This conference on pediatric infectious diseases will cover topics of interest to pediatricians, family physicians, and other primary care providers for children and young adults. These include updates on: CMV, influenza, COVID-19; sexually transmitted infections, urinary tract infections, group A strep infections, mycoplasma infections and musculoskeletal infections

Objectives

Upon completion of this conference, participants will be able to:

- Discuss the epidemiology, clinical manifestations, prevention, and treatment of SARS-CoV-2/COVID-19.
- Discuss best practices and guidelines in the diagnosis and management of mycoplasma infections, group A Strep infections, STIs, and UTIs.
- Discuss best practices and guidelines for the diagnosis and management of Lyme disease in children and young adults.
- Discuss best practices and guidelines for the management of CMV.
- Describe the newest data on prevention, diagnosis and management of influenza.
