**MONUMENT HEALTH RAPID CITY HOSPITAL**

West Auditorium

353 Fairmont Blvd, Rapid City, SD 57701

Provided by

Children's Hospital Colorado

In collaboration with

## Overview, Target Audience and Learner Outcome

This symposium is for interdisciplinary healthcare team members caring for pediatric patients in an emergency and pre-hospital setting. As a result of this session, learners will be able to report new knowledge and intent to change practice in order to provide current, evidence-based care to pediatric patients.

## Objectives

- Discuss process to assess level of illness in pediatric patients.
- Discuss pediatric-specific patient assessment and various pediatric responses to illness and trauma.
- Review common physical abuse injuries and explain the relationship between clinical history and physical abuse diagnosis
- Describe initial management of a pediatric burns.
- Review common respiratory issues and treatments for increased work of breathing in pediatrics.
- Discuss a plan to develop a safe and rational approach to acute provision of pediatric sedation and pain control.
- Identify the possible causes of sudden cardiac death in young people as well as what warning signs to look for and when to refer for cardiology evaluation.
- Describe the initial stabilization and emergency management of common environmental emergencies.
