

VIRTUAL COURSE

4TH ANNUAL

Children's Hospital Colorado Virtual Pediatric Care Symposium

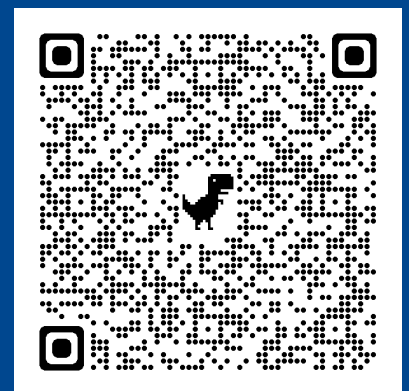

October 25, 2023

Offers CME, NCPD & EMS credits

Provided by:

Children's Hospital Colorado

Overview, Target Audience, and Learner Outcome

This conference is for interdisciplinary healthcare team members caring for pediatric patients in a variety of settings. As a result of this session, learners will be able to report new knowledge related to pediatric specialty practice in order to provide current, evidence-based care to pediatric populations.

Objectives

- Describe the initial stabilization and emergency management of common environmental emergencies.
- Describe evidence-based suicide screening tools that can be used with youth across settings.
- Describe practical tools for approaching pediatric patients with respiratory distress using clinical case scenarios
- Review signs, symptoms, and treatment options of DKA in the pediatric patient.
- Describe what information can reliably be interpreted from wearable technology in pediatric patients.
- Discuss applications of health equity via pediatric health system examples.

Agenda

7:45 am	Introduction and Welcome
8:00	Emergent Pediatric Environmental Case Studies Timothy Givens, MD
9:00	Addressing the Nation's Youth Mental Health Crisis: Evidence-Based Practices for Suicide Screening and Prevention Jessica Hawks, PhD
10:00	Break
