

33rd ANNUAL

O'Neil Pediatric Clinical Update

September 26, 2024

In-person event with a virtual option

Children's Hospital Colorado | Anschutz Medical Campus | 13123 East 16th Avenue, Aurora, Colorado 80045

Provided by Division of Patient Care Services | Professional Development Department

Overview, Target Audience and Learner Outcome

This conference focuses on assessment and management of common pediatric conditions in hospital, ambulatory and community settings. Current clinical issues and implications for children's health and practitioner care delivery are presented and discussed.

Interprofessional participation is encouraged for RNs, advanced practice providers, child life specialists, medical assistants, OTs, PTs, RTs, social workers, students, EMS providers and others interested in improving the care of infants, children, and youth.

After attending this educational offering, participants will report increased knowledge of current and emerging trends in pediatric healthcare and report at least one practice change they intend to make as a result of this new knowledge.

Continuing Education Credit

Registration, attendance, sign-in and submission of the evaluation, including a written response to questions related to any change in practice that you may make as a result of learning that took place at this activity, are required for successful completion and receipt of the certificate of attendance. Claim only those hours you attend.

Children's Hospital Colorado is approved with distinction as a provider of nursing continuing professional development by Colorado Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. This offering for 7 nursing contact hours is provided by Children's Hospital Colorado.

Children's Hospital Colorado

Affiliated with
University of Colorado
Anschutz Medical Campus

Objectives

- Identify three components of mental health and strategies for supporting each of these components.
- Explain the importance of medical record litigation.
- Discuss the structure and mandate of the Precision Medicine Institute and provide an update on current and past bodies of work.
- Explore various ways Children’s Hospital Colorado uses VR and Tech to help patients.
- Describe recent child health policy initiatives and to equip them with some of the basic advocacy tools to feel empowered to advocate for a better future for children.
- Discuss counseling and communication techniques for adolescents and young adults, including confidentiality.
- Explore differential diagnoses, management plans and hospital courses for patients presenting to the emergency department with urgent and emergent complaints.
