Affiliated with
University of Colorado
Anschutz Medical Campus

Overview, Target Audience and Learner Outcome

Eliza Fernie was well cared for as a child in the Cardiology Department at Children's Hospital Colorado in the early 1980s. As an adult pursuing her own career now, she and her family continue to be grateful for the care she received. Their aim is to give back by helping pediatric nurses and other members of the healthcare team continue to excel in the clinical setting.

The Eliza Fernie Pediatric Critical Care Symposium is designed to provide evidenced-based critical care updates for nurses, respiratory therapists and other team members. After attending this event, participants will be able to report increased knowledge in evidence-based critical care updates.

The overarching conference theme this year is "caring community, humble expertise, generous service, and boundless creativity." Developed as a part of the Children's Hospital Colorado Values, all that we do is "for a child's sake." Over the two-day conference we will explore the caring community that honors the sacred trust of our patients, families and each other through humble expertise, generous service, and boundless creativity. We will learn about crisis management in trying times. We will examine challenges faced in critical care related to the pandemic and its effect on kids. We will explore other challenges facing the children for whom we care. We will gain clarity on complex cases, and we will participate in some resiliency activities to address self-care.

Objectives

- Bishop
- Describe the current state of Respiratory Care and the effect on Children's Hospital Colorado.
- Ridder
- Bajaj
- Explain how different ECMO cannulation strategies can facilitate rehabilitation and recovery from respiratory failure due to COVID-19.
- Diagnose and manage MIS-C.
- Describe current substance abuse trends and outline their impact on children and youth
- Carubia

Continuing Education Credit

Registration, attendance, sign-in and submission of the evaluation, including a written response to questions related to any change in practice that you may make as a result of learning that took place at this activity, are required for successful completion and receipt of the certificate of attendance. Claim only those hours you attend.

Nursing

Children's Hospital Colorado is approved as a provider of nursing continuing professional development by Colorado Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. This educational offering for 9.25 nursing contact hours is provided by Children's Hospital Colorado (4/20 - 4.75 hours; 4/21 - 4.5 hours).

Other Providers

A general certificate of attendance is available to all other care providers.

Acknowledgements

We gratefully acknowledge the Fernie Family for their generous financial support from the Eliza Fernie Endowment for Nursing Education that allows healthcare providers to enhance their knowledge to better care for infants, children and teens who are critically ill.

We are thankful for the William Randolph Hearst Endowed Fund for Perinatal and Pediatric Outreach Programs through Children's Hospital Colorado that provides conference support and reduced registration fees for all attendees.

Further Information
