University of Colorado School of Medicine, Children's Hospital Colorado

### Overview, Target Audience, and Learner Outcomes

This educational session will provide updates on how to effectively care for children with type one diabetes in the school or childcare setting. We will discuss utilizing a multidisciplinary care plan, common dietary concerns, and the impact of type one diabetes on mental health. Participants will also have exposure to common diabetic devices such as CGMs, insulin pumps and rescue medication trainers. After attending this event, participants will report increased knowledge and confidence related to caring for children with diabetes in the school or childcare setting. Participants will successfully demonstrate insulin dosage calculations and use of diabetes device use seen in the school setting.

### Continuing Education Credit

Attendance, sign-in and submission of the evaluation, including any change in practice that you may make as a result in learning that took place at this activity, are required for successful completion and receipt of the certificate of attendance.

Children's Hospital Colorado is approved as a provider of nursing continuing professional development by Colorado Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
