

CHILDREN'S HOSPITAL COLORADO PRESENTS

Virtual Education Series: Evaluation of the Short Statured Child: When is This a Skeletal Dysplasia?

Thursday, February 16, 2023 • 12 to 1 p.m.

Teleconference (Zoom link sent with registration)

Overview, Target Audience and Learner Outcome

This activity for the interdisciplinary healthcare team will include a review of current literature and clinical pathways followed by Children's Hospital Colorado for the evaluation and diagnosis of skeletal dysplasia. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on clinical practice. As a result of this activity, learners will be able to report new knowledge related to skeletal dysplasia in order to provide current, evidence-based care to pediatric patients.

Objectives

- Identify causes of short stature in children
- Discuss skeletal dysplasia types and etiologies
- Describe the evaluation of short stature for skeletal dysplasia
