

CHILDREN'S HOSPITAL COLORADO PRESENTS

Breathing Institute Webinar Series: Ventilator Care Program

Thursday, June 27th, 2024 • 12 to 1 p.m.

Teleconference (Zoom link sent with registration)

Overview, Target Audience and Learner Outcome

This series for the interdisciplinary healthcare team will include a review of current literature and clinical pathways followed by Children's Hospital Colorado for the evaluation, treatment and management of pediatric patients with a diagnosis of asthma or sleep disorder breathing, or who have a tracheostomy. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on clinical practice. As a result of this activity, learners will be able to report increased knowledge and intent to change practice related to providing current, evidence-based care to pediatric patients requiring tracheostomy tubes and chronic ventilation.

Objectives

- Review indications for tracheostomy placement and chronic ventilation
- Review routine care and emergency care for patients with tracheostomy and chronic ventilation needs
- Discuss the essential (*and fun*) components of an interdisciplinary ventilator care program (VCP)
