

CHILDREN'S HOSPITAL COLORADO PRESENTS

## Virtual Education Series: Neonatal Case Studies

Thursday, November 21, 2024 • 12 to 1 p.m.

Teleconference (Zoom link sent with registration)

### Overview, Target Audience and Learner Outcome

This activity for the interdisciplinary healthcare team will include a review of current literature and clinical pathways followed by Children's Hospital Colorado for the evaluation and treatment of neonates. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on clinical practice. As a result of this activity, learners will be able to report new knowledge related to providing current, evidence-based care to neonatal patients.

### Objectives

- Review baseline expectations for the normal newborn infant
- Identify the presentation of pathologic illness in multiple neonates who require transfer to the neonatal intensive care unit
- Identify non-invasive and minimally disruptive process improvements that can be implemented in the community setting to improve patient outcomes
