

CHILDREN'S HOSPITAL COLORADO PRESENTS

Pediatric Echocardiography Education Series: Echo Smarter, Not Harder: Practical Tips in CHD (Part 2)

Friday, June 19th, 2026 • 2 to 3 p.m.

Teleconference (Zoom link sent with registration)

Overview, Target Audience and Learner Outcome

This activity for sonographers and other interested healthcare team members will include pediatric scanning techniques, cardiac structures of interest, and neonatal echo emergencies. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on clinical practice. As a result of this activity, learners will be able to self-report new knowledge related to pediatric echocardiography in order to provide current, evidence-based care to pediatric patients.

Objectives

- Review standard ASE recommendations for pediatric echocardiography windows: subcostal and suprasternal.
- Identify key anatomic and physiologic elements to evaluate utilizing these views.
- Illustrate examples of different pathologies visualized from parasternal and apical windows.

Faculty from Children's Hospital Colorado / University of Colorado

Sarah Kongphongmany, BS, RDCS(PE), FASE
Echo Education Specialist
Children's Hospital Colorado

Cesar Gonzalez de Alba, MD
