

CHILDREN'S HOSPITAL COLORADO PRESENTS

Virtual Education Series: Pain We Cause: Rethinking Routine Needle Procedures in Children

Thursday, August 20, 2026 • 12 to 1 p.m.

Teleconference (Zoom link sent with registration)

Overview, Target Audience and Learner Outcome

This activity for the interdisciplinary healthcare team will include a review of current literature and clinical pathways followed by Children's Hospital Colorado for needle pain mitigation. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on practice. As a result of this activity, learners will be able to report new knowledge related to needle pain mitigation in order to provide current, evidence-based care to pediatric patients.

Objectives

- Describe the clinical and psychological impact of pediatric needle-related pain and the importance of implementing intentional pain mitigation strategies during routine procedures.
- Identify evidence-based interventions to reduce pediatric procedural needle pain and improve the patient and caregiver experience at the bedside.
