CHILDREN'S HOSPITAL COLORADO PRESENTS

Virtual Education Series: Common Toxicological Emergencies in Pediatrics

Thursday, December 17, 2026 • 12 to 1 p.m.

Teleconference (Zoom link sent with registration)

Overview, Target Audience and Learner Outcome

This activity for the interdisciplinary healthcare team will include a review of current literature and clinical pathways followed by Children's Hospital Colorado for care of a pediatric patient with a toxicological emergency. In addition to a presentation from content experts, attendees will participate in case study review and discussion to provide direction on practice. As a result of this activity, learners will be able to report new knowledge related to toxicological emergencies to provide current, evidence-based care to pediatric patients.

Objectives

- Identify the clinical presentation of various over the counter medication overdoses and household product ingestions.
- Describe initial management of pediatric patients during common toxicological emergencies.

Faculty from Children's Hospital Colorado / University of Colorado

Laurie Seidel Halmo, MD, FAAP
Associate Professor of Pediatrics and Medical Toxicologist
University of Colorado School of Medicine
Volunteer Faculty, Rocky Mountain Poison and Drug Safety
Section of Pediatric Hospital Medicine
Children's Hospital Colorado
